

I am thankful that New Jersey's Do NOT Call law is as stringent as it is! It helps protect my family's privacy and assure that our time at home is just that: OUR TIME; not some telemarketer's or pole-taker's. NJ residents can elect to sign up for it's protection - or not. That's one of the things that makes it good. NJ laws should be about protecting NJ's people, NOT benefitting businesses at the expense of our privacy and sense of peace.
